HARIMA to Exhibit at Productronica

HARIMA CHEMICALS GROUP, INC.

HARIMA will exhibit at Productronica (Munich, Germany, Nov 18~21, 2025), “world's leading trade fair for electronics development and production. Visitors and exhibitors from all over the world come together here, making Productronica the most important meeting place and source of inspiration for the industry”. This time we will be represented by parties from Harimatec Czech and HARIMA UK, 2 of our core subsidiaries in the domain of electronic materials.

[HARIMA Exhibits]

- **Hall:** A4, **Booth:** 106

- **Exhibits**

A market leader in solder materials innovation, HARIMA offers a broad selection of solder pastes, cored and solid wires, liquid fluxes, and multiple alloys, for current and future solder materials requirements. At Productronica, we will display the latest developments in our vast portfolio of solder materials that meet the various needs of the automotive and telecommunications industries.

A section dedicated to the exhibition will be available on Harimatec Czech's website, and here you can book a special session with our experts for tailored technical solutions for specific production and business needs. [Click here for details](#)

Our exhibits are also presented on Harimatec Czech site inside Productronica:
